Classic Marble Company (CMC) has introduced six new products in its KalingaStone Terrazzo range – Elite.

The collection features six premium designs named Exotic White, Lavish White, Silver Rock, Terra Cream, Golden Spark and Gatsby Green. Each Terrazzo slab is a unique design varying in colours, contrast, patterns and overall looks. The distinguishing mosaic patterns on each Terrazzo slab lend the products its exquisite appearance. The collection can be installed in residential as well as commercial areas across a variety of applications including flooring, counter-tops, walls, table tops, stairs and for bathroom walls.

The Exotic White is a white Terrazzo marble with coloured chipping. The Lavish White in contrast is a black marble but has white chips that appear almost like bubbles against the dark backdrop. The Silver Rock is an off-white Terrazzo but with the mosaics much smaller than the others in the collection. The Terra Cream is a cream shade Terrazzo where even the mosaics are of the same colour but in darker shades which highlight its appearance. The Golden Spark is a black Terrazzo marble displaying copper brown patterns across the surface giving the slab a surreal kind of beauty. The most varied mosaic design in the collection is the Gatsby Green which is available in the green shade with a tinge of grey.

An engineered material, the Terrazzo slabs are durable, hygienic, less porous, and offer fine aesthetics. These slabs have remarkable beauty and strength and can be installed in flooring, walls, table tops. This Elite collection from CMC assures to give the installed area a fresh new look while offering great functional value add.
