DESIGN TRENDS OF 2021

THE YEAR GONE BY HAS BROUGHT  
OUT THE BEST IN US. WE ARE READY  
TO FACE THE WORLD NOW BRAVER  
THAN BEFORE.

Laying this foundation for the new world is our exclusive 2021 collection.  
The best that nature has to offer meets the best version of you. So your  
home reflects nothing but the finest.

## GREENER

The world took a much needed breath of fresh air as everyone went under lockdown.

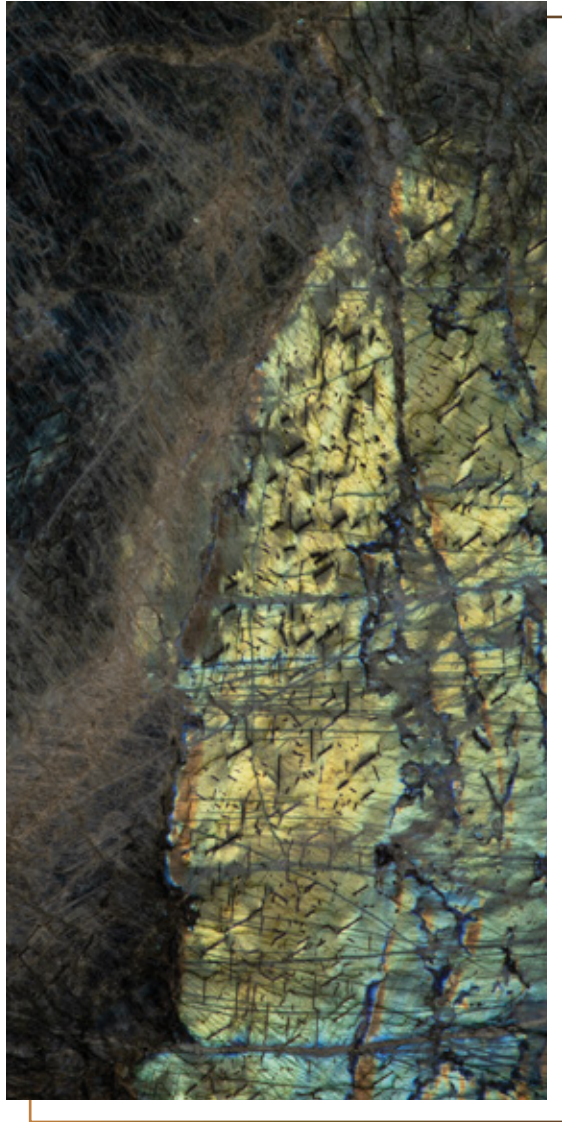

Never has nature blossomed to its purest as in this time. Never has the air we breathe been so pure.

A testimony to purity, every stone in the 2021 collection is sourced responsibly, keeping Mother Nature intact. Brought to you from across the globe. With love from the depths of the earth.

# RESPONSIBLE/

This time around, we understood what true responsibility is. Towards the human race and towards Mother Nature at large.

Each slab in the 2021 collection is testimony to our commitment towards our corporate social responsibility. As we give back to society through various acts and to maintain the beauty and honour of Mother Nature in our every quarry.
