CMC introduces its latest collection from 9th Avenue

Posted On November 4, 2020 in [News & Update](#)

The collection incorporates a range of six extraordinary landscape designs found in nature.

Classic Marble Company (CMC) has introduced a new collection of the limited edition 9th Avenue range in luxury stones. Launched as 'The Terrain', the collection is a range of six extraordinary landscape designs found in nature. Thunder Gold, Turtle Shell, Fusion Wov, Fusion Elegance, Diaspro and Fusion Classico, each stone is rare and exhibits nature's enigmatic designs to embellish modern living spaces. The marble products introduced under the collection undergoes CMC's signature 'Process 360' for enhanced strength, durability and beauty. Each slab is a unique design that captures mother nature's varied terrains, from mountains to the seas.

Thunder Gold – The marble design is a burst of energy in your room. Swirls of gold against a black-grey canvas resembling mountains and ravines, the Thunder Gold offers a timeless spectacle to the applied space.

Turtle Shell – Aptly named, the Turtle Shell's design is very similar to that of the shell of a turtle and in many cultures, a turtle's shell personifies good health and is known to bring good luck. The natural marble design creates an aura of calm and peace.

Fusion Wov – The stone is a fusion of sand, rocks, earth, flora and more. A brilliant melange of earth and fossil, the Fusion Wov exhibits everything that nature has nurtured over millions of years.

Fusion Elegance – Intriguing in appearance, the Fusion Elegance is a sheer pleasure to look at. Hues of brown, orange and pearl white intermingle against the dominant grey to offer a distinctly elegant look.

Diaspro – Undiluted and uncharted, fragment and wild, the Diaspro's beauty is entirely unconventional. From among the rarest, this piece of rarity is one of the most coveted marble in the world. The beige, off-white and other shades of brown on the palette come together on the marble surface to create a work of visual art that is almost unfathomable to the human mind.

Fusion Classico – The Fusion Classico is a breath-taking design. Rich and enigmatic, the marble exudes class and distinction. A fusion of dark against light in shades of black and beige, the stone is as pure and rare as there can be.

The marble designs offered in the limited edition collection are exquisite as well as rare. The marble slabs are designer products and are recommended best for feature walls. The collection is targeted towards a niche consumer base that lives and craves a discerning lifestyle.
